

FEED ADDITIVE | ACIDIFIER

Orgacids*

ANTIBACTERIAL ACIDIFIER

Orgacids* is an acid compound containing a balanced amount of formic acid, lactic acid, malic acid, tartaric acid, citric acid and orthophosphoric acid.

Orgacids* can effectively lower the pH value in the entire GIT, thus helping in digestion and absorption of nutrients. It promotes growth and improves feed efficiency.

Orgacids* kills harmful bacteria in animal feeds and in the GIT of animals. The continuous use of Orgacids* can help to control bacteria such as *S. enteritidis*, VRE and *E. coli* in the GIT. It also improves the growth of lactobacillus and other beneficial organisms in the GIT.

COMPOSITION

Formic acid, Lactic acid, Malic acid, Tartaric acid, Citric acid and Orthophosphoric acid.

Total Acids >36%

INDICATIONS

- Lower pH value in the entire GIT
- Control of pathogenic organisms in gastrointestinal tract
- Sanitization of animal feeds
- Improvement in weight gain and FCR

ROUTE OF ADMINISTRATION

Mix into feed.

DOSAGE

	Swine	Pre-starter	2.0 kg/MT of feed
		Starter	1.5 kg/MT of feed
		Grower/Finisher	1.0 kg/MT of feed
		Sow	1.0 kg/MT of feed
	Poultry	Broiler	1.5-2.0 kg/MT of feed
		Layer	1.5-2.0 kg/MT of feed
		Native Chicken	2.0 kg/MT of feed
		Duck	2.0 kg/MT of feed

WITHDRAWAL PERIOD

No withdrawal period required.

PACKAGING

VERSION NO.

SZPIS2013-1
