

UNIFAT 100 (GOLD)

Functional Red Palm Oil Powder for Ruminants

Description

Produced by Super-freezing Crystallization Process to retain Red Palm oil natural phytonutrients:

- Rich in carotenoids. Carotenoids (pro-vitamin A) are the precursors of vitamin A, it is necessary for animal growth and health.
- Rich in Vitamin E (tocopherols and tocotrienols). Powerful antioxidants to improve oxidative stability.

Features & Benefits

- Optimizes energy intake
- Good digestibility
- High palatable
- Prevent loss of body weight
- Increase milk yield
- Increases fat and protein percentage in milk
- Stimulates fertility

Specifications:

Analysis	Specification
Appearance	Solid beads ,Golden color
Free Fatty Acid (as Palmitic)	Min. 30%
Moisture	Max. 1.0%
Insoluble Impurities	Max. 1.0%
Iodine Value	15-18
Peroxidase Value	Max. 5.0 meq/kg
Total Fat Content	Min. 99%
Major Fatty Acid Compositions	
C12:0 Lauric	Min. 0.5%
C14:0 Myristic	Min. 0.5%
C16:0 Palmitic	Min. 75%
C18:1 Oleic	Min. 8%
C18:2 Linoleic	Min. 2%
Total Fatty Acid	Min. 95%
Melting Point	55°C-58°C
β-Carotene	Min. 75ppm
Vitamin E	Min. 350ppm
Gross Energy	Min. 8800kcal/kg

Note: Standard Specification for reference only, specification may vary depends on raw materials.

Compositions

Crude Palm Stearin

Dosage

450 – 750 g/day/cow

Storage

Store in cool dry place. Keep away from odoriferous materials and avoid direct exposing to sunlight.

Packing size

25Kg
