Features & Benefits

- Optimizes energy intake
- Improves daily weight gain
- Improves carcass quality
- Better palatability & pallet ability
- Improve egg sizes & quality
- Improve production & quality of milk of sow
- Shorten fattening period

Specifications:

Analysis	Specification
Appearance	Solid, white beads
Free Fatty Acid (as Palmitic)	Min. 1.00 Max
Moisture	Max.0.5 Max
Iodine Value	15-20 Max
Slip Melting Point	54°C-60°C
Peroxidase Value	Max. 5.0 meq/kg
Total Fat Content	Min. 98%

Note: Standard Specification for reference only, specification may vary depends on raw materials.

Compositions

Refined Palm Oil

Dosage

Poultry 2-5 % (Addition to feed ration)
 Fattening Pig 2-5 % (Addition to feed ration)
 Sow 2-5 % (Addition to feed ration)

Storage

Store in cool dry place. Keep away from odoriferous materials and avoid direct exposing to sunlight.

Packing size

25Kg
